University of California Santa Barbara, CA

93106, Biotechnology is the broad area of

science involving living systems and

organisms to develop or make products, or

"any technological application that uses

biological systems, living organisms, or

derivatives thereof, to make or modify

products or processes for specific use" (UN

Convention on Biological Diversity, Art. 2).,

This document gives a chronology of

computing at Columbia University, as best I

can piece it together, written mainly in

Jan-Feb 2001, updated periodically since

then (time of last update listed above)., 21

"But choose men of ability from all of the

people. They must have respect for God.

You must be able to trust them. They must

not try to get money by cheating others.
