mathematical concepts and developing skills  
in mathematics require a sincere  
commitment to learning.Younger students  
must bring a willingness to engage in  
learning, The java.lang.Math class allows the  
use of many common mathematical functions  
that can be used while creating programs.  
Since it is in the java.lang package, the Math

class does not need to be imported.

However, in programs extensively utilizing these functions, a static import can be used
