results, Philosophy of space and time is the branch of philosophy concerned with the issues surrounding the ontology,

epistemology, and character of space and

time. While such ideas have been central to

philosophy from its inception, the philosophy

of space and time was both an inspiration for

and a central aspect of early analytic

philosophy., General and introductory texts:

philosophical approach to the ontological

nature of time, which takes the view that all

existence in time is equally real, as opposed

to presentism or the growing block universe

theory of time, in which at least the future is

not the same as any other time., 1 HISTORY
