## TYPES OF LINES ENGINEERING

DRAWING PDF - Search results, Line

Types: In an engineering drawing, every line

has a definite meaning. Various types of

lines are used to represent different parts or

portions of an object. Lettering in Drawing:

Lettering plays a major role in engineering

drawing. It indicates details like

dimensioning, name of the drawing, etc., If all

lines on a drawing were equally thick, the

drawing is confusing and difficult to interpret,

as the outlines do not stand out from the

dimension lines, with small objects made

obscure from the intersection of many thick

lines., Engineering Drawing Practice for
